

src/FichierTextePersiBny.h

```
graph TD; A[src/FichierTextePersiBny.h] --> B[fstream]; A --> C[stringstream]; A --> D[iostream];
```

A diagram illustrating the relationship between a header file and three stream classes. At the top, a gray rectangular box contains the text 'src/FichierTextePersiBny.h'. Three blue arrows point downwards from the bottom edge of this box to three separate white rectangular boxes below. The leftmost box contains 'fstream', the middle box contains 'stringstream', and the rightmost box contains 'iostream'. This indicates that the three stream classes inherit from or are defined based on the header file.
